

TAMO 411

OATS

- ✓ **Excellent grain yield and test weight variety**
- ✓ **Great forage yield potential with good regrowth**
- ✓ **Good winter hardiness**
- ✓ **Wide area of adaptation**

Description

TAMO 411 is a dual-purpose winter oat variety. TAMO 411 combines excellent grain yield, high test weight, forage potential, good winter hardiness and good straw strength to resist lodging with excellent resistance to current races of crown rust in Texas and moderate resistance to current stem rust races prevalent to Texas. With a wide area of adaptation, TAMO 411 has good performance in many environments. As a forage, TAMO 411 has shown excellent yield potential and regrowth.
